## YASYA

St Thomas Institute of Technology proudly presents our annual cultural event 'YASYA'. Cultural activities facilitate holistic development of students. Students from different niches are given a platform to accentuate their adroitness.

Taking a road to the path of history, Yasya witnessed it's beginning in 2015. Commencing a humble journey as an intra college event in both 2015 and 2016, Yasya advanced into an inter college cultural meet in 2017. The following years from 2017 to 2019, it was embellished with splendid events that integrated and motivated myriad shades of our diverse culture and art. Live proshow and DJ are some of them among a huge allocation of events. The success of these events are indeed the audience and Yasya has hosted the cheering hands of more than 50,000 people. Major managements of Federal bank, Bhima jewellers, Hotel Karthika Park, KSFE ... have generously extended their support through sponsorships.

This pandemic hovering era has indeed tested the resilience of Yasya and in 2020 we were obliged to halt all activities to honour the COVID regulations made by the government. In 2021 Yasya got a breath of air through online platform and in 2022 YASYA has grown and will grow by the solidarity of students and thus as a team we move forward to explicate **Together we define.**

We are preparing to give Yasya a grand reignite by announcing the comeback of the eighth edition - **Yasya 2022.**

Culture and art is the antidote to every youth that suffers from the burden of the pandemic situation. We believe Yasya as a healing aura for our young generation and a new beginning for the budding hope and creativity & positivity in each of us.
