

Expert Talk on Red Teaming and Dependency on Open-Source Tools

In conjunction with FOSS UNITED and the Department of Computer Science and Engineering (CSE), successfully hosted an expert talk on "Red Teaming and Dependency on Open-Source Tools" on Nov 17th 2023. The session was skilfully conducted by **Mr Davis Sojan, a seasoned Security Engineer at UST.**

The event commenced with a soulful prayer song performed by Abel George Mathew (S5 CSE). Subina (S1 DS) delivered a warm welcome speech, expressing gratitude to the attendees and setting the stage for an engaging and informative session.

Mr. Anup Mathew Abraham, Head of the CSE Department, delivered a presidential address, emphasizing the significance of events that bridge the gap between academia and industry. His insights added academic weight to the occasion.

Davis Sojan captivated the audience with his expertise in red teaming and the reliance on open-source tools. Attendees gained practical insights into the evolving landscape of cybersecurity. Mrs. Bindu Ann Thomas, the Staff Coordinator, and Joel Johnson, the Student Coordinator, played pivotal roles in orchestrating the event seamlessly, ensuring its success. A token of appreciation was presented by the Principal, Dr. A G Mathew, recognizing the efforts and commitment of the organizers, speaker, and participants. This gesture reflected the institution's support for initiatives promoting knowledge and collaboration. Jisha delivered a heartfelt vote of thanks, expressing gratitude to all involved parties, including the speaker, coordinators, participants, and sponsors, for contributing to the success of the event.
