Report of Non-sponsored Activities

Brief Details about the Programme:

The "Power Platforms" event, hosted by the IEI Computer Science Students Chapter from November 20 to 22, 2023, proved to be an insightful exploration into the cutting-edge realm of power platforms. With a specific focus on the applications and advancements within this domain, the event aimed to equip its 30 student participants with a comprehensive understanding of the transformative potential of power platforms in the field of computer science. The distinguished speakers, Archish Nair and Akhil S Kumar, brought their expertise to the forefront, delivering presentations that delved into the intricacies of power platforms and showcased real-world applications. The participants actively engaged in discussions and hands-on workshops, contributing to a dynamic learning atmosphere.

The event's schedule spanned three days and covered a range of topics, from introductory sessions to in-depth case studies and practical demonstrations. Feedback from participants highlighted the event's success in meeting educational objectives, with many expressing enthusiasm for future events. The organizational prowess of the IEI Computer Science Students Chapter was evident, ensuring a seamless experience for speakers and participants alike. Despite potential challenges, the chapter efficiently managed logistics, underscoring their commitment to

delivering impactful and enriching experiences. As a result, the "Power Platforms" event stands as a testament to the chapter's dedication to fostering knowledge exchange and providing valuable insights to the student community.
